

ORGANİK KİMYA

26%

Recycled Carbon Content*

ORGAL® RW R086VR MF

APEO free, special cross-linked acrylic copolymer which is designed for interior and exterior high-performance wood and furniture varnishes.

Key Features

- Excellent gloss development
- High blocking resistance
- Excellent hydrophobicity and low water permeability according to EN 927-5
- Superior adhesion performance (wood, metal and mineral substrates)
- Excellent outdoor durability
- Outstanding resistance to damage coming from household chemicals

Technical Properties

Appearance	White emulsion
Solid Content (% ± 1)	43
Viscosity (Brookfield LVT 3/60)	max 400 cps
pH	8.5 – 9.0
MFFT (°C)	14

For 1 ton of ORGAL® RW R086VR MF production, We SAVE;

150

kilograms of
coal burned

5

tree seedlings
grown for
10 years

24,254

numbers of
smartphones
charged

0.7

barrels of oil
consumed

1230

km driven by an
average gasoline
powered passengers
vehicle

ORGAL® RW R086VR MF demonstrates a reduction of 22 % in carbon footprint**

*Recycled carbon content is theoretically calculated based on w/w% of total monomers.

**Comparing STD fossil based product.
